The Apeejay Stya University is a seat of global learning that offers rich opportunities for innovative teaching-learning, creativity and research across disciplines. It aims to bring about transformation of society through value-based education, man-making and nation-building, by blending together the dual identities of a technology and research based university with a liberal arts institution.

Established by the Apeejay Stya Education Foundation in the state of Haryana [under Act No. 10 of the Haryana Private Universities (Amendment) Act 2010], the ASU provides students not only 'education for living and livelihood' but also 'education for life', and empower learners with a fundamental foundation in leadership and professional skills to face the challenges of the new liberalized global economy.

Situated amidst a sprawling, picturesque campus with state-of-the-art infrastructure on the Sohna-Palwal Road in Gurgaon district of Haryana, the ASU offers a wide range of innovative graduate, postgraduate and doctoral programmes across a plethora of disciplines that are based on the best education practices of some of the leading universities of the world. These are greatly facilitated by the strong industry-academia linkages, already established by the existing Apeejay institutions of higher learning in all disciplines being offered by the University.

The University has been set up under the vision and untiring stewardship of renowned industrialist, educationist, philanthropist and freedom-fighter Dr. Stya Paul, who has spearheaded the cause of education for over four decades as Founder President of the Apeejay Education Society (AES).

The ASU and AES are a social commitment of the Apeejay Stya and Svrn Group-a highly diversified industrial conglomerate-and are known for their innovative approach to teaching, learning and research and reaching out to the community.

Apeejay's higher education programmes span across leading colleges and professional institutes that offer over 85 courses at the graduate and postgraduate levels in Management, Computer Sciences, Architecture, Engineering, Information Technology, Fine Arts, Design, Mass Communication, Bio-Sciences, Clinical Research and Humanities, to name a few. All the programmes of ASU meet rigorous quality standards of the industry and stipulations set by the various University Certification bodies under the University Grants Commission.
