AIIMS Jodhpur is one of the SIX NEW AIIMS established by the Ministry of Health & Family Welfare, Government of India under the *Pradhan Mantri Swasthya Suraksha Yojna* (PMSSY) with the aim of correcting regional imbalances in quality tertiary level healthcare in the country and attaining self sufficiency in graduate and postgraduate medical education. PMSSY planned to set up 6 new AIIMS like institutions in under served areas of the country. These institutions are being established by an Act of Parliament on the lines of the original All India Institute of Medical Sciences in New Delhi which imparts both undergraduate and postgraduate medical education in all its branches and related fields, along with nursing and paramedical training to bring together in one place educational facilities of the highest order for the training of personnel in all branches of health care activity. The College of Nursing, AIIMS, Jodhpur has been established to become a benchmark in field of Nursing Education in India. The first batch of B.Sc (Hons) Nursing started on 2nd September, 2013 with an intake of 60 students. Nursing is an art as well as profession of scientific care. Nursing is a unique profession with a primary focus on care of the sick in the hospital in particular and providing preventive, promotive and rehabilitative health care services to the community at large. The domain of Nursing is based on the synthesis of biological, behavioural, social and cultural sciences with the focus on the population across the life span to maximize their potential for optimal health. As a practice discipline, Nursing enters the lives of individuals, families and communities for the purpose of healing, maintenance and adaptation. Nursing continues to be an indispensable service in the health care sector. Nursing practice is also dynamic as it grows continuously through health care, research, education, quality improvement and advocacy. Nursing personnel work independently, collaboratively and assume accountability and responsibility for the delivery of evidence based, cost effective quality client care. The turbulent swirl of change within the health care industry, the increased consumer awareness and increased health care cost has provided challenges and opportunities for Nursing professionals. Competent nurses are in demand all over the world .The College of Nursing, AIIMS Jodhpur is striving hard to prepare technically advanced professional nurses to cater the need of country in specific and global in general.

Aims and Objectives:

To train and educate nursing students so that they can make a significant contribution in all branches of nursing for promotion of health, prevention of diseases, maintenance of health and care during illness; To develop a research oriented view among the nursing professionals in nursing education and practice; To develop a continue education programme for different levels of nursing professionals for their professional growth and development; To demonstrate a commitment to leadership and professionalism through the delivery of socially, ethically and economically responsible client care.
