Arunodaya University, established by the Government of Arunachal Pradesh under “Arunodaya University Arunachal Pradesh Act 2014 (Act No. 9 of 2014), which received the assent of the Hon’ble Governor of Arunachal Pradesh on October 26, 2014 and published in the Arunachal Pradesh gazette on October 30, 2014 vide Notification No. LAW/LEGN-10/2014 is a new entrant in the education sector of the country and a collaborated initiative of World Education Mission and the Government of Arunachal Pradesh. Arunodaya University is the first University of the eastern region of Arunachal Pradesh of India. The first rays of sunshine of India light up the University each morning. The University has been incorporated with an objective of providing quality education supplemented with industrial internship and professional training in the areas of business & management, engineering & technology, training & development, computing & information technology, entrepreneurship, rural development, media & communication, basic and varied branches of science, humanities, juridical sciences, liberal art & sciences, performing arts, quality training & development of civil servant officials etc. Arunodaya University comes under section 2(f) of UGC act which empowers it to award degrees specified in section 22 of UGC act of 1956. Apart from this, the University is authorized to award diplomas, Degrees, certificates, pre-University certificates UG, PG and other academic distinctions in conformity with the provisions of the Arunodaya University Act (Act No. 9 of 2014). The University is open to all irrespective of caste, class, creed, religion, region, language, gender and nationality. The main campus of the University is situated in Itanagar, Arunachal Pradesh. The University trusts humanity and nature, the ones created by the Almighty. The University has skill development courses as it is a very effective and an efficient methodology of educating people with the help of real time working environment. This mode of education is necessary for a country like India because it serves the dual purpose of best utilization of the educational resources and adequate human resource development. The deficiencies of classroom teaching is backed up by practical skills. Theoretical knowledge serves half the purpose in classroom sessions whereas the University’s contemporary model believes in providing classroom as well as practical training sessions. This provides an edge to our students over the others who have not undergone such a model, to accommodate in their desired industries. It strengthens the University learning experience by clubbing practical skills with the study of concepts from various disciplines. The University will also focus on skill development programs with in-hand training to ensure employability of outgoing students in tune with the current policy of the government of India to provide proper training for employability of the youth. Classroom teaching, interactive mode teaching will be effectively supplemented through web based sharing of knowledge in such a way that all the students get the benefit of web based learning resource of the University as well as from the leading Universities across the world. The University believes in a level playing field for all and has continuing education programmes which will provide a chance to the drop out students to continue their studies in an institution/ a department/ a faculty/ a college/ a school of the University. As they say there has not been a night that shall defeat the sunrise. The University is all about realizing the potentials of an individual and then adding wings to them to fly high to their pinnacles. The overall mission & vision of the University is to provide quality education supplemented with industrial internship & professional training for holistic development of the students and the nation.
