It was in 1968 that Late Shri Dharmsinh Dadubhai Desai founded Dharmsinh Desai Institute of Technology with one Department of Chemical Engineering offering an UnderGraduate course and a Diploma course in Chemical Engineering.

The objective was to provide technical education and prepare students for the needs of the industry. Various engineering departments were successively added.

The University shall undertake programmes and projects for development of human resources, both through formal and non-formal delivery systems, in areas of professional pursuits in all walks of human endeavours, with accent on relevance, value addition, societal needs and futuristic pilot projects.

To become a multi-disciplined and learner-oriented university. To closely associate with and be responsive to Industry.

To create a supportive and caring environment for staff and students.

To improve R&D activities in areas of national priority.

The University is for persons who wish to advance in the workplace and emerge as competent professionals and noble citizens.

The University meets these needs by delivering applied and professional programs, primarily at the graduate and higher level, that anticipate and respond to the changing world and global economy. We are committed to the highest level of quality, teaching excellence, and applied research that pursues solutions to real world problems.
