Gujarat Technological University (International Innovative University), commonly referred as GTU, is a statewide institution affiliating many esteemed engineering, pharmacy, and management colleges and varsities across the western Indian Districts of Gujarat.

Gujarat Technological University was established on 16th May, 2007 to provide excellence in science and technology field. GTU makes degree engineering 100, degree pharmacy 90, diploma engineering 90, MBA 119, MCA 76, Hotel Management 2, diploma Pharmacy 16, in total 4 lac students and 20 thousand professors united under GTU and has achieved new stage in science and technology. GTU library provides live environment to enable the advancement of knowledge and discovery. Our Mission is to provide Faculties and students a vast ocean of knowledge which can bring new inventions and discoveries.

Earlier, Gujarat University was the prime university of Gujarat state heading all colleges including technical colleges. To ensure more efficient, and systematic imparting of technical education, the state government formulated GTU. GTU declares results all around from February to April for winter exams and all around from June to August of summer exams.

The Objective of Integrated Training and Placement cell is offering the best candidates at one location. At the same time single point of contact to offer better services to industries. Moreover, we would like to invite industries for campus recruitment. Industries may arrange campuses at all seven places for that region or we can merge and make two or three centres as per the need of the industries.

GTU made a small beginning by organizing a Preparatory Meeting and a Half-day Seminar on Saturday, 10th August 2013 on Solid Waste Management systems. Krupali Raval and Priyanka Deliwala, two young women-students at LJ Institute of Engineering & Technology developed an innovative system of solid waste management as their Final Year project. They have studied the properties of the solid waste in Ahmedabad and the dumping site of Pirana. I visited the Institute on 13th May 2014 to inaugurate the use of the system for the entire LJ campus.
