

NATIONAL INSTITUTE OF TECHNOLOGY ANDHRA PRADESH

Sri Vasavi Engineering College
Temporary Campus : Tadepalligudem
West Godavari Distt., Andhra Pradesh – 534101
Email : rcnitap@gmail.com

National Institute of Technology, Andhra Pradesh is the 31st institution among the chain of NITs started by the Government of India. NIT Andhra Pradesh is established in the state of Andhra Pradesh recently in the academic year 2015 – 2016. Mentor Institute : National Institute of Technology, Warangal is given the responsibility of mentoring the new institute for 2 to 3 years or till regular arrangements are made. Director, NIT Warangal is the Mentor Director of NIT AP. Two or three senior faculty of NIT Warangal will be stationed at the new institute for monitoring the institute activities. Resident Coordinator, Heads of Department of Science & Humanities and Department of Engineering Sciences will be stationed at the campus. The National Institute of Technology Andhra Pradesh is the 31st institution among the chain of National Institutes of Technology started by the Government of India and is situated at Tadepalligudem, West Godavari District, Andhra Pradesh State. It is an Institute of National Importance, being an NIT. NIT Andhra Pradesh was established in Tadepalligudem, State of Andhra Pradesh and it is functioning from the academic year 2015–2016. National Institute of Technology Warangal is the mentor institute. The permanent campus is located at Tadepalligudem town of West Godavari district in Andhra Pradesh. Around Rs. 400 crores has been granted by Government of India for the establishment of this campus. Foundation stone was laid by the Union Minister for Human resource Development Smt. Smriti Irani and the Andhra Pradesh Chief minister N. Chandra Babu Naidu on 20 August 2015. The permanent building is likely to be completed within two years in an area of 176 acres. Till then the classes for the students of NIT Andhra Pradesh would be conducted in a temporary campus identified at Sri Vasavi Engineering College, Pedatadepalii near Tadepalligudem. Hostel facilities are extended for boys and girls. The West Godavari District is extremely fertile, getting water abundantly throughout the Cotton barrage built on the Godavari River and the district is popularly known as the Granary of India since about 50% of the state's rice production comes from the district. An area of 176 acres has been earmarked in Tadepalligudem by Government of Andhra Pradesh is in the process of constructing the compound wall around the land and hand over to the institute for development of infrastructural facilities in the permanent campus. The location of NIT campus will be the old airport area along with already existing airstrip. The airstrip would soon serve as a 2 km, 8 line CC road in between the campus, and in any other campus in India would not possess such a wide CC lane in between campus. This also enhances the beauty of campus and the constructions are planned on either side of the air strip. The campus is very well connected such that one of its entrances would be on NH16 and the other side of the campus will be connected into the core town area of Tadepalligudem. The campus is extremely well connected by road (Chennai-Howrah NH16), by rail (Vijayawada - Vishakhapatnam section) and by air (Vijayawada [National], Rajahmundry [National] and Visakhapatnam [International] airports for about 100 km, 50 km and 240 km respectively). All the factors of the campus are in such a way that the development of infrastructure, civil constructions etc., would not take much more time to grow and the institute would glory soon. NIT Andhra Pradesh was started to function at the temporary campus from 10 September 2015 and the foundation stone for permanent campus had been laid down on 20 August 2015.
