Raffles University, Neemrana was established by an Act of the Legislature is an autonomous body incorporated as per the Act and is a recognized university of the UGC. The amalgamation of teaching and research is fundamental to Raffles University and give students the knowledge of what existing and train them to look for the unknown with the help of innovative and multidisciplinary research tools. By cultivating a University research culture, the collaborative inputs of both faculty and students will pave the way to find new concepts, theories and products that will further help transforming the society.

The aim of the university is to provide education that meets global standards. The effort is designed to enable students to face professional challenges in a highly competitive world. The faculty acts as a guide and facilitator and the students are given case studies in advance so they can come well prepared and then there is discussion around the topic and brainstorming is done around it.

Raffles believe in the innovative learning environment where the students get an opportunity to find learning experiences both inside and outside the classroom. The philosophy is not to teach the students what to learn but how to learn so that they can be ready to meet any challenge that arises in their career path thus making learning extend far beyond the classroom to most of what the students experience for the rest of their life.

Raffles University is situated in NCR region, at Neemrana on Delhi - Jaipur National Highway No.8 and is just 2 Hours drive from New Delhi , very well connected by six lane express way.

Why Choose Raffles University?

- The University adheres to merit as the sole criteria in it's decision making.
- The academic programs help develop the stamina and diligence essential for success in the increasingly competitive international environment.
- All activities are designed with definite learning objectives for Individual development of students
- The programs offered at the University not only develop the capacity to work hard, but also the ability to think analytically and to solve problems.
