Vice Chancellor : Mr. K. Ashok Vardhan Shetty
Registrar : Shri C. Mohan

The birth of Indian Maritime University is a long cherished dream of the maritime community of India.

The Indian Maritime University, established through an Act of Parliament (Act 22) in November 2008 as a Central University, is poised to play a key role in the development of trained human resource for the maritime sector.

The following are the objects of the University :

(i) to facilitate and promote maritime studies, training, research and extension work with focus on emerging areas of studies like oceanography, maritime history, maritime laws, maritime security, search and rescue, transportation of dangerous cargo, environmental studies and other related fields, and also to achieve excellence in these and connected fields and other matters connected therewith or incidental thereto.

(ii) to promote advanced knowledge by providing institutional and research facilities in such branches of learning as it may deem fit and to make provisions for integrated courses in Science and other key and frontier areas of Technology and allied disciplines in the educational programmes of the University;

(iii) to take appropriate measures for promoting innovations in teaching-learning process, inter-disciplinary studies and research; and to pay special attention to the promotion of educational and economic interests and welfare of the people of India;

(iv) to promote freedom, secularism, equality and social justice as enshrined in the Constitution of India and to act as catalyst in socio-economic transformation by promoting basic attitudes and values of essence to national development; and

(v) to extend the benefits of knowledge and skills for development of individuals and society by associating the University closely with local, regional and national issues of development.

India is traditionally a maritime nation and has a rich maritime heritage. History documents trade links of India had with other nations of the world from the ages of Harappan civilization. India's maritime history precedes the birth of western civilisation. The world's first tidal dock is believed to have been built at Lothal around 2300 BC during Harappan Civilisation, near the present day Mangrol harbour on the Gujarat coast. The Rig Veda, written around 2000 BC, credits Varuna with knowledge of the ocean routes commonly used by ships and describes naval expeditions using hundred-oared ships to subdue other kingdoms. The maritime tradition of India is as old as our civilization and as vast as the Indian Ocean.
