Indian Institute of Science Education and Research, Thiruvananthapuram (IISER-TVM) is dedicated to scientific research and science education of international standards. Traditionally, teaching has been segregated from research in undergraduate science curricula in our country. IISERs were established by the Ministry of Human Resource Development, Government of India, to bridge this dichotomy. IISER-TVM started functioning in August 2008. The institute aims to provide high quality education in modern science, integrating it with outstanding research at the undergraduate level itself, and develop a spirit of research cutting across disciplines. The faculty are engaged in research in the frontier areas of basic sciences, with a high degree of autonomy and creativity.

Thiruvananthapuram or IISER-TVM, is one of seven IISERs, institutes established by the Ministry of Human Resource Development, Government of India, to bridge the gap between teaching and research at the undergraduate science level in the country. It aims to provide high quality education in modern science, integrating it with outstanding research of international standards at the undergraduate level itself, and develop a spirit of research cutting across disciplines. The institute awards five-year integrated Master of Science degrees in Mathematics, Physics, Chemistry and Biology. There are facilities for doing research in those areas leading to the award of PhD.

IISER-TVM is located on the campus of the College of Engineering, Trivandrum (CET). A site of 200 acres (0.81 km<sup>2</sup>) for establishing a permanent campus has been identified at Vithura, at the foothills of the Ponmudi hills of the Western Ghats, about 50 km from Thiruvananthapuram. There are six other IISERs in India, namely IISER Bhopal, IISER Kolkata, IISER Mohali, IISER Pune, IISER Tirupati and IISER Berhampur.
