Marwadi University is the venture initiated by the managers of the Best Engineering College in Rajkot named as MEFGI, an institution that has proved its worth and commitment through high quality education and top placements. In perpetuation to the success story, this University has been established with the vision of creating new platforms standing on which students can touch the heights of success. A number of courses are offered to facilitate learning for a variety of job sectors under single roof. Large and airy classrooms, seminar halls and activity halls have been provisioned with projectors and perfect sound system to provide quality learning and enjoyable environment that encourages the value of learning with fun. A lot of activities are organized by the departments and student activity clubs so that students and teachers associated with all sectors can interact and learn together the management skills along with knowledge about the field of each other. To ensure learning compliant with latest industrial standards, we have hired a big pool of highly qualified and experienced faculty. The inception of this venture from an already established education hub has accelerated the process of settlement and growth resulting in Marwadi University being considered on the top of the list of Best Engineering Colleges in Rajkot and Best Management Colleges in Rajkot.
